				<i>given by Universities-colleges will be visible to the student on their login dashboard on the portal from 12:00 midnight on 22.06.2026.)</i>
9	Admission Confirmation & Consent – 4	23.06.2026 to 29.06.2026	05*	<ol style="list-style-type: none"> <li>The student should log in to their dashboard on the GCAS portal and check the admission offer given by the respective university-college.</li> <li>Confirm the offer of the preferred University-College-Program-Main Subject on the portal out of all the offers received on the student's dashboard.</li> <li>Take a print of the offer letter and <b><u>report for admission to the respective university-college during their working hours</u></b> with all original certificates and one set of self-attested certificates.</li> <li>Pay the fee at the university-college as per rules and confirm the admission with an OTP.</li> </ol>

\* 10.05.2026, 17.05.2026, 24.05.2026, 31.05.2026, 07.06.2026, 14.06.2026, 21.06.2026, 28.06.2026 – Sunday

\* 27.05.2026, 26.06.2026 – Public Holiday

#### **Notes:**

- The special admission round will be announced late on.
- On the days of Technical Process & Admission Offer mentioned in the schedule, the respective university-college will offer admission to the students as per their University-College-Program-Main Subject preferences and based on the eligibility, merit, tie-breaker, and other admission rules of the respective university-college. All admission offers given by the respective university-colleges will be visible together in the students' log-in from 12:00 midnight on the day of Technical Process & Admission Offer.
- The respective university-college will offer admission to the student from all the preferences given by them based on their eligibility, merit, tie-breaker, and other admission rules. The GCAS portal has no role in the admission offer given to the student by the respective university-college. The student will be able to confirm their admission in their preferred University-College-Program-Main Subject from it. **The special things to be kept in mind by the student are as follows:**
  - Out of all the offers received by the student, the preference number in which they confirm their admission in their preferred University-College-Program-Main Subject, all the colleges below that preference number will be deactivated in the upcoming rounds.
  - It is mandatory for the student to give "**Consent**" to get an admission offer from all the choices in the University-College-Program-Main Subject above the preference number received by them in the upcoming rounds. Otherwise, the student will not get an admission offer from their higher preference number University-College-Program-Main Subject in the upcoming rounds.
  - In case a student does not confirm admission in any offer received by them in any round, the offer received by them as well as all preferences below it will be deactivated. However, this student will remain eligible as per rules for an admission offer from their higher preference number university-college in the next round.
  - Examples to clarify the process of Merit, Preferences, and Consent are given below. These examples can be used for guidance:
    - Suppose a student has applied on the GCAS portal and has indicated their Preferences as follows:
      - Preference 1:* B.Sc. (Physics) – College A (First Choice/Preference)
      - Preference 2:* B.Sc. (Physics) - College B
      - Preference 3:* B.Sc. (Chemistry) - College A
      - Preference 4:* B.Sc. (Chemistry) - College B
      - Preference 5:* B.Sc. (Mathematics) – College A

---

**Situation 1: The student secures admission and gives consent (Consent) for the higher order.**

- ii. **Round 1 Result:** The student is offered admission at Preference 3 and Preference 4.
    1. The student decides to secure their admission at Preference 3 (B.Sc. Chemistry, College A). They log in to the portal, confirm via OTP, visit the respective college, verify documents, pay the prescribed fee, and confirm admission. At the same time, they click on the "**Consent**" button for higher preferences in the next round.
    2. The choices of Preference 4, 5, and 6 for the student will be permanently deactivated.
    3. Since they have given "Consent", the system will consider them as per merit for Preference 1 and 2 in the next round. If they are allotted Preference 1 in Round 2, their old admission on Preference 3 will have to be cancelled by confirming via OTP on the portal, and then they will be able to confirm the admission offer received in Preference 1 via OTP.
- 

**Situation 2: The student secures admission but forgets to give consent (Consent).**

- iii. **Round 1 Result:** The student is offered admission at Preference 3.
    1. This admission is acceptable to the student but they still wish to get Preference 1. They confirm the admission of Preference 3 via OTP, but **forget** to give online "**Consent**" on the dashboard.
    2. Preference 4, 5, and 6 will be automatically deactivated.
    3. Due to not giving consent, the system will **lock (Freeze)** their choice. Even if seats are vacant in Preference 1 and 2 in Round 2, those **seats will not be offered** to the student. Their admission will be considered permanent at Preference 3 itself.
    4. However, if the student wants to take admission in Preference 1 and 2 in the subsequent Round 3, they can rejoin the admission process by giving online "**Consent**" on the dashboard.
- 

**Situation 3: The student rejects the admission received on the day of the offer.**

- iv. **Round 1 Result:** The student is offered admission only at Preference 5.
  1. The student does not confirm this admission currently. However, to **continue in the admission process for Preference 1 to 4**, they log in to the portal and wish to participate in the next round.
  2. They lose their right to the seat of Preference 5, but in Round 2 the system will appropriately consider them as per merit for Preference 1, 2, 3, and 4. Whereas Preference 6 will be automatically deactivated.
4. The responsibility of the truthfulness of the information shown on the GCAS portal and the uploaded documents belongs to the student filling the information. If the student is deprived of admission due to filling wrong information and presenting wrong documents, the entire responsibility will lie with the respective student. Therefore, the student should fill all the details carefully on the portal.
5. Once the basic information, educational information, details of program-college-university etc. are filled on the GCAS portal and the form is submitted, if the student wants to make any changes in this information, they can do so before the last date of filling the form, but every time after making any such changes, it is mandatory to submit the form, otherwise the form will not be considered for admission.
6. Students whose marksheet shows only grades must scan the certificate showing marks/percentage (Conversion Certificate) along with the marksheet of the affiliated board/university on the "Applicant's Attachment Details" page and upload it as a single document.
7. If a student finds any difficulty in finding the program-college-university on the "Applicant's Preference Details" page while applying online on the GCAS portal, they can find their preferred program-college-university by

using the Know Your College (KYC) tab given on the homepage of the GCAS portal <https://GCAS.gujgov.edu.in/>.

8. If a student finds any difficulty in filling the online form on the GCAS portal, they can **visit the Free Form Filling Center** shown on the portal in person and get help.
9. New '**AI Agent**' facility on GCAS portal for the convenience of students! Students can now immediately get information, cut-offs, and other necessary details of any government or private university associated with the GCAS portal or any college affiliated with them through a call or chatbot. Visit the GCAS portal for the chatbot and call **+91-7969799680** to get information by talking to the 'AI Agent'.
10. The university-college-program in which the student is getting admission, they should first confirm the admission via OTP on their login dashboard, after which the student will have to report to the respective university-college in person within the prescribed time limit and give the OTP provided on their registered mobile and email to the university/college authorities to get the admission confirmed in the respective program. If the student does not confirm their admission on the online portal and in person in the respective college within the prescribed time limit after receiving the admission offer, their right to admission in the respective college will not remain.
11. At the time of reporting at the university/college, the student will have to get all their original documents verified at the college/university.
12. Students should choose/prefer only those university-programs in which they actually want to get admission. While making such choices/preferences, the percentage obtained in standard 12 must be kept in mind.
13. Students should choose university-programs only after taking into consideration the eligibility rules of various programs shown on the website of the respective university/college and on the portal, which are published by the respective university-colleges.
14. A student will be able to select more than one university-college-program through a single application via the GCAS portal. But through one application, a student will be able to get admission in any one university-college-program only.
15. To get admission in programs whose admission is determined by ACPC, ACPDC, ACMPC or any other council, there is no need to apply through the GCAS portal.
16. Other matters related to the admission process will be announced from time to time. Therefore, the student must visit the GCAS portal regularly.
17. To cancel the confirmed admission, the student will be able to cancel the admission by confirming via OTP on the portal. Students cancelling their admission are especially informed that they will have to follow the procedure of fee refund submitted at the respective university-college at the time of confirming their admission as per the rules of the respective university-college. The GCAS portal has no role in this connection.
18. **The registration fee paid by the student on the GCAS portal (Rs. 300/- in case of Unreserved and SEBC category and Rs. 150/- in case of SC, ST and EWS category) is not refundable. Therefore, the student must choose the category/course/program/form type very carefully while registering. Furthermore, the student should specifically note that the category mentioned by the student at the time of registration cannot be changed during the admission process.**
  - a. Students who want to study in regular mode in undergraduate programs or want to get admission in undergraduate-postgraduate integrated programs should select **Under Graduate (Regular)**.
  - b. Students who want to study in distance education programs offered by Dr. Babasaheb Ambedkar Open University in undergraduate level programs should select **Under Graduate (for BAOU)**.
19. Students should provide their own mobile number and e-mail address at the time of registration so that they can get information regarding admission on time. Information will be provided to the student from the portal via SMS/WhatsApp message/e-mail. However, they should keep checking the portal regularly so that no information is missed.
20. New '**AI Agent**' facility on GCAS portal for the convenience of students! Students can now immediately get information, cut-offs, and other necessary details of any government or private university associated with the GCAS portal or any college affiliated with them through a call or chatbot. Visit the GCAS portal for the chatbot and call **+91-7969799680** to get information by talking to the 'AI Agent'.
